The Sapphire is a gem you are sure to fall for. The exquisite kitchen brings joy to everyday cooking tasks as amateur chefs prop their tablets on the island trying out the latest Food Network recipe. There's more than enough room to chop veggies for the ratatouille. Hosting guests in the casual dining area? The layout of the island ensures no one will see dirty pots in the sink. Working from home is no problem in your secluded home office. Serenity can also be found in your luxurious primary suite. The downstairs location means peace and quiet even if there are guests upstairs. A convenient utility room, formal dining room and covered patio are splendid accompaniments to the design.
